

International Journal of Applied Physics and Mathematics (IJAPM)

CONTENTS

Volume 2, Number 5, September 2012

Notes on the Associated and Supported Primary Ideals of a Module.....	304
<i>Lamis J. M. Abul Lebda</i>	
Optimal Release Time with Gain in Reliability of Object Oriented Software Testing and Reusability.....	309
<i>Dinesh Kumar Saini, Nebras Hasson, and Feras Hasoon</i>	
Cyber Defense: Mathematical Modeling and Simulation.....	312
<i>Dinesh Kumar Saini</i>	
An Optimized Model for Linear Feature Extraction from Satellite Image.....	316
<i>Leila Mohammadnia and Jalal Amini</i>	
Examining the Validity of the Fundamental Matrix Equation.....	319
<i>Tayeb Basta</i>	
On Completely E^* -Irresolute and Completely Weakly E^* -Irresolute Functions in Topological Spaces via E^* -open Sets.....	323
<i>Alaa M. F. Al. Jumaili and Xiao-Song Yang</i>	
Characterization of P-Compactly Packed Modules.....	328
<i>Lamis J. M. Abu Lebda</i>	
Choosing the Right Warranty Policy – from the Customer’s to the Manufacturer’s Point of View.....	333
<i>Vladimir Popovic, Dragan Stamenkovic, and Branislav Rakicevic</i>	
Reciprocal Relation between Special Relativity and Quantum Mechanics and Correspondence between Continuous and Discrete Motion.....	336
<i>Mushfiq Ahmad</i>	
Modeling Microfibril Angle and Tree Age in Acacia Mangium Wood Using X-Ray Diffraction Technique.....	338
<i>Tamer A. Tabet, Fauziah Abdul Aziz, and Noraini Abdulla</i>	
A Generalization of the Notion of Connes-Amenability.....	342
<i>Amin Mahmoodi</i>	
Coupled Fixed Point Theorems for a Pair of Weakly Compatible Maps Along with (CLRg) Property in Fuzzy Metric Spaces.....	345
<i>Sumitra and Fatimah A. Alshaikh</i>	
Tilted Bulk Disordered Distribution Cosmological Model.....	348
<i>Rakeshwar Purohit and Anita Bagora</i>	

Parametric Cox's Model for Partly Interval-Censored Data with Application to AIDS Studies.....	352
<i>F. A. M. Elfaki, M. Azram, and M. Usman</i>	
CLRg Property for Coupled Fixed Point Theorems in Fuzzy Metric Spaces.....	355
<i>M. Alamgir Khan and Sumitra</i>	
Single Array and Response Modeling of Robust Design Experiments.....	359
<i>Zaharah Wahid and Ming T. Tham</i>	
A High Order Accurate Nodal Discontinuous Galerkin Method (DGM) for Numerical Solution of Hyperbolic Equation.....	362
<i>Fareed Ahmed, Faheem Ahmed, Yonghang Guo, and Yong Yang</i>	
Imperfect Barotropic Magnetic Tilted Cosmological Model.....	365
<i>Anita Bagora and Rakeshwar Purohit</i>	
Application of Laplace Decomposition Method to Solve Linear and Nonlinear Heat Equation.....	369
<i>Sujit Handibag and B. D. Karande</i>	
Optimal Parameters of Moving Average Control Chart.....	372
<i>Yupaporn Areepong</i>	
Model Choice for Stochastic Epidemics in Households.....	376
<i>C. H. Wen and P. H. O'Neill</i>	
Robustness of Tukey's Control Chart in Detecting a Changes of Parameter of Skew Distributions.....	379
<i>Saowanit Sukparungsee</i>	
Discussions on Necessary Conditions for Equivalency of Primary, Irreducible, and Strongly Irreducible Submodules.....	383
<i>Najmeh Ahang, Ahmad Khaksari, and Maryam Zandi</i>	
Multispectral Image Matching Technique.....	388
<i>Hassan Hajjdiab, Mohamad Ghazal, Haitham Farok, and Fares Howari</i>	
Tilted Bulk Dusty Universe.....	392
<i>Rakeshwar Purohit and Anita Bagora</i>	
Tilted Bianchi Type I Barotropic Cosmological Model.....	396
<i>Anita Bagora and Rakeshwar Purohi</i>
